LINES AND CURVES VIRTUAL EXHIBITION

The Lines and Curves Virtual Exhibition originated from the “Virtual Exhibition + Artist’s Book,” which was an international open call inviting women artists to submit their work for a digital showcase on theme Lines and Curves. This project aimed to recognize, celebrate, and support the creative talents of women artists worldwide by offering them a unique platform to present their art in a virtual format, as well as in a beautifully crafted artist’s book. This initiative, launched in 2024, represented the first edition of our dual-format exhibition and publication. “Virtual Exhibition + Artist’s Book” is designed to be a comprehensive anthology that documents and celebrates the diverse practices and perspectives of contemporary artists. The project provides an immersive experience, combining the accessibility of a digital exhibition with the tactile allure of a traditional artist’s book.

Welcome to "The Lines and Curves Virtual Exhibition," an exciting exhibition that showcases the amazing talents of women artists from around the world. This collection is not just beautiful to look at, but also shows how Lines and Curves can bring out emotions, tell stories, and connect people from different places.
