The World Through Little Eyes

EXHIBITION NOTE

A Virtual Exhibition from The Big Book of Tiny Creatives

The World Through Little Eyes invites us to step gently into a world where imagination knows no limits and every line, shape, and color tells a story. This exhibition celebrates the vision of young creators whose works remind us of what it means to see life with curiosity, honesty, and unfiltered wonder.

Children create with a freedom that many of us lose as we grow older. They are unafraid of bold colours, unapologetic in their choices, and fearless in their expression. A sky may be green, a sun may be blue, and the impossible suddenly feels possible when seen through their eyes. In every crayon stroke and splash of paint lies a truth — that creativity at its purest is not about perfection, but about joy, discovery, and the courage to dream.

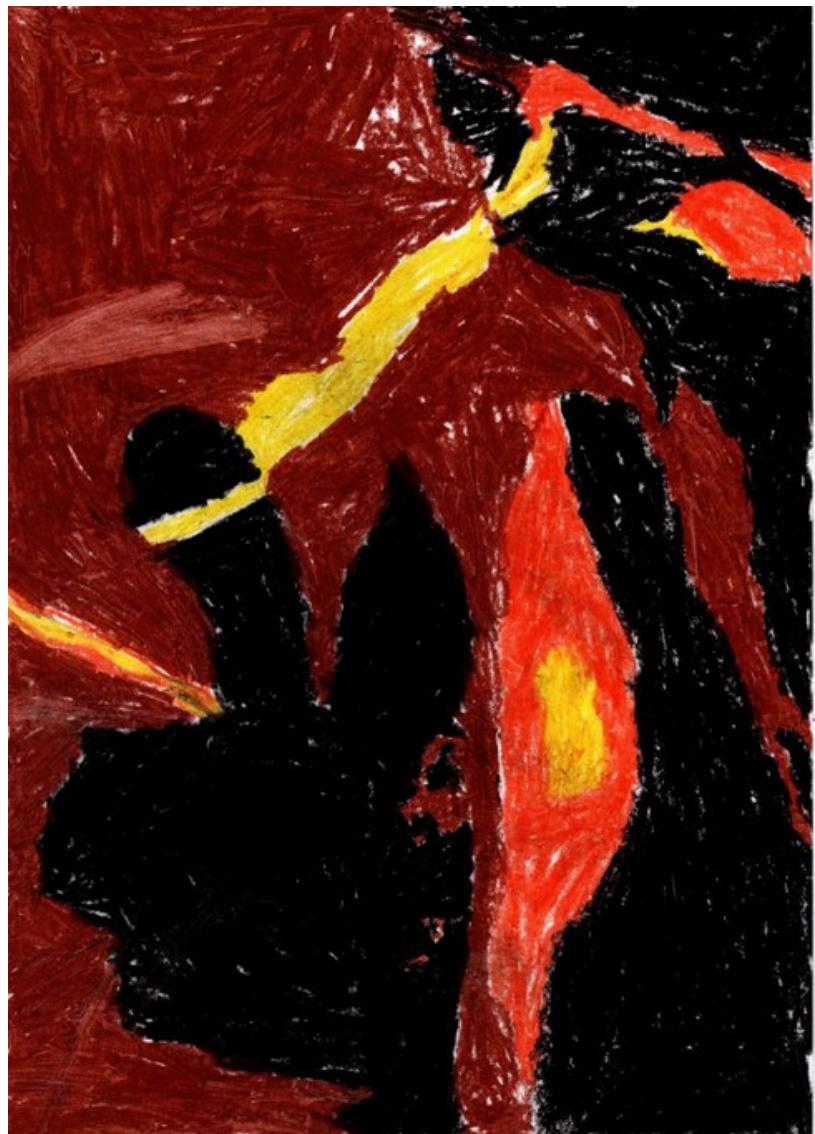

This exhibition asks us to slow down and remember. To recall our own childhoods, when imagination was endless and possibility was everywhere. It is a gentle reminder that wonder is not something we leave behind, but something we can choose to carry with us.

Through their little eyes, we rediscover our own and the world feels new again.
