

VIRTUAL EXHIBITION

The World Through Little Eyes

CATALOG 2026

EXHIBITION NOTE

There is an honesty in the way children make art. They create without worrying whether a tree should be blue, a house should float, or the sky should be filled with impossible colours. Their imaginations move freely, transforming everyday moments into stories of wonder, curiosity, and possibility.

The World Through Little Eyes invites us to experience that way of seeing. Bringing together the artworks featured in The Big Book of Tiny Creatives, Edition 3, this virtual exhibition celebrates the joy of exploration, the excitement of discovery, and the limitless creativity that children naturally bring to the world around them.

Every artwork offers a glimpse into a unique perspective. Some are playful and imaginative, others thoughtful and expressive, but together they reveal a shared sense of curiosity that reminds us to rediscover the beauty in ordinary moments. Through vibrant colours, unexpected ideas, and heartfelt storytelling, these young artists encourage us to see the world not as it is expected to be, but as it could be.
